LUIGI DE GIORGI

Junior Product Designer (UX/UI)

+39 340 478 1327 · luigidegiorgi1998@gmail.com

PROFILE

Product-minded professional with nearly a decade of experience in operations, team leadership and customer relationships, now transitioning into Product Design (UX/UI). Google UX Design Certified, and currently building a portfolio of UX/UI case studies — including an end-to-end project guided by Espacio UX design studio, covering user research, interviews, personas, journey mapping and wireframing for an international user base. Brings structured problem-solving, cross-functional collaboration and close attention to detail from years spent making things work better for people.

AREAS OF EXPERTISE

UX Research & User Interviews / Wireframing & Prototyping / UI Design & Design Systems / Cross-functional Team Leadership / Workflow & Process Optimization / Stakeholder Communication / Structured Problem-Solving / Multilingual Communication

PROFESSIONAL EXPERIENCE

Manager & Worker · Truck and Car S.r.l., Motteggiana, Italy
2019 – 202

Managed daily business operations, coordinating customers, suppliers and technicians while ensuring efficient workflows and high service quality.

Key responsibilities included:

– Managing customer relationships and understanding their needs.

– Coordinating suppliers, negotiating prices and maintaining long-term partnerships.

– Organizing schedules and optimizing operational workflows.

– Leading day-to-day team activities and supporting collaboration.

– Solving unexpected operational issues under time constraints.

– Improving internal processes through the adoption of new technologies and digital tools.

This experience strengthened my skills in problem solving, stakeholder management, communication, prioritization and process optimization—all highly transferable to Product Design.

– **Promoted to this role after three years, reflecting consistent growth, ownership and initiative.**

Store Supervisor (promoted from Food Service) · Forno Cultura, Toronto, Canada
9-MONTH INTERNATIONAL EXPERIENCE · APRIL 2025 – NOVEMBER 2025

Promoted to Supervisor after demonstrating strong leadership, efficiency and customer service skills.

Main responsibilities:

– Coordinating daily store operations.

– Supporting and guiding team members during shifts.

– Managing inventory and supplier orders.

– Maintaining food safety standards.

– Solving operational challenges in a fast-paced environment.

– Ensuring an excellent customer experience while balancing business and operational needs.

This role strengthened my leadership, communication, adaptability and service design mindset.

Vehicle Bodyshop Repairer · Truck and Car S.r.l., Motteggiana, Italy
2017 – 2018

- Repaired, replaced and maintained a wide range of vehicles, developing a sharp eye for detail and finish quality.
- Built strong decision-making skills while working under pressure in demanding conditions.
- Learned welding and painting techniques — first hands-on experience shaping and finishing physical surfaces.

DESIGN PROJECTS (PORTFOLIO IN PROGRESS)

End-to-End UX Case Study · *Guided by Espacio UX Design Studio*
- Leading a full UX process from the ground up — user research, interviews, personas, journey mapping and wireframing — for a digital product built for an international user base.

Additional UX/UI Projects · *In final stage*
- Two additional independent projects nearing completion, including a travel discovery app concept focused on connecting users with authentic, locally-verified experiences.

Full case studies launching soon — available on request.
